

We're looking for amazing, enthusiastic speech and occupational therapists to join our team working with children in DC. As a team member, you will be supported with our combined 20+ years of experience, but also be provided autonomy and flexibility in your schedule and workload. Our practice invests in its team members because we believe supporting you means supporting our kids! You won't find a better mix of an interesting caseload, fun clients and families, supportive environment, and great pay with a high degree of freedom.

For speech therapists, CFs are welcome and encouraged to apply.

For occupational therapists, an ideal candidate will have at least two years of experience in pediatrics and a strong understanding of sensory integration theory.

You should be a self-starter, willing to learn, good with communication, a team player, and ultimately, very passionate about helping and serving the pediatric population. Please contact us and send your resume to info@thespeechspacedc.com
