The Speech Space

Play, Talk, Grow

Our pediatric private practice in Glover Park DC is looking for an Occupational Therapist to join our supportive and welcoming team. We are seeking someone who is enthusiastic, compassionate, and excited to make a meaningful difference in the lives of children and their families.

The ideal therapist is a strong communicator who enjoys partnering with and coaching parents and caregivers, is organized, has a positive and collaborative attitude, and takes initiative when challenges arise. We're looking for someone who is a self-starter, works well both independently and as part of a supportive team, and is always open to learning new skills and approaches.

An ideal candidate will have at least two years experience in pediatrics and a strong understanding of sensory integration theory. Our sensory gym is equipped with various gross and fine motor equipment. Duties include: assessment and treatment of the pediatric population (generally age range of 2-7 years old), writing and sharing session notes with families (via our secure portal system), and communicating with families about their questions and progress.

At our practice, we value collaboration, professional growth, and creating a positive environment for both our clients and our team. We love sharing ideas, supporting one another, and celebrating successes—big and small. If you're looking for a practice where you can grow, feel supported, and truly enjoy coming to work each day, we'd love to hear from you!
